

Wall High School

1630 18th Avenue, Wall, New Jersey 07719

Rosaleen A. Sirchio
Principal

All students now have Google Apps / Gmail accounts, which enable them to access Gmail, log on to the Google Apps environment, participate in Google Classroom, etc. Their Gmail address, which is also used as the username for Google Apps, is their network username followed by "[@wall.k12.nj.us](mailto:wall.k12.nj.us)". For example, John Smith's network username is johsmith. His Google Apps username and Gmail account is "johsmith@wall.k12.nj.us".

Students need to synchronize their passwords. To do this, students should perform the following steps:

1. Log on to ClassLink using your network username and password.
2. Click on "Start - Settings - Windows Security".
3. Click on "Change Password".
4. Enter your old password, followed by your new password, and then confirm your new password. The new password can be the same as the old password.
5. Click on the OK button to change the password, then on the OK button again.
6. Click on the "Cancel" button to exit the "Windows Security" screen.

This procedure will ensure that the Google Apps and Gmail password is the same as the network password.

Sincerely,

Rosaleen A. Sirchio
Principal
