J. Implementation of the Nurse Practice Act:		N.J.S.A. 45:11-23.- New Jersey Board of Nursing Statutes
The practice of nursing as a registered professional nurse is defined as diagnosing and treating human responses to actual or potential physical and emotional health problems, through such services as case-finding, health teaching, health counseling, and provision of care supportive to or restorative of life and well-being, and executing medical regimens as prescribed by a		

<p>licensed or otherwise legally authorized physician or dentist.</p> <p>Diagnosing in the context of nursing practice means that identification of and discrimination between physical and psychosocial signs and symptoms is essential to effective execution and management of the nursing regimen. Such diagnostic privilege is distinct from a medical diagnosis.</p> <p>Treating means selection and performance of those therapeutic measures essential to the effective management and execution of the nursing regimen. A human response means those signs, symptoms, and processes which denote the individual's health need or reaction to an actual or potential health problem.</p>
