

## **2016-2017 Governor's Educator of the Year**

### Old Mill School:

As a special education teacher, Miss Roberts is the textbook definition of a professional educator. The key to her success is the understanding she possesses of how individual students learn best. Given the nature of her position, instruction must be and is truly differentiated. Combine this with her ability to handle complex student behaviors are the reasons her students find so much success. Just ask anyone about her, and you will hear them say “she's awesome”. Congratulations on this fine accomplishment.
