

2016-2017 Governor's Educational Service Professional of the Year

Old Mill School:

As a school psychologist, Mrs. Clayton works closely and often with students, teachers and parents. Her professionalism, insight on learning and student behaviors, coupled with the keen understanding of interpersonal relationships makes her an asset to Old Mill School. Whenever asked she steps right into the mix of things, focused on one thing, and that is to act and make decisions in the best interest of students. One would be hard pressed to find a psychologist as fine as Mrs. Clayton. Congratulations on this professional accomplishment.
